Summary of the latest Intelligence,

But little was done in Congress yesterday, and but little we expected, for we made up our mind some time since that no business of consequence, beyond the passage of the necessary appropriation bills, would be transacted during this session. In the Senate, the joint resolution making military bounty warrants granted during the last session, assignable, was passed; and the original grant was extended, so as to declare that officers, non-comnissioned officers, privates, regulars, volunteers, State troops, rangers, and militia men, mustered into the service of the United States, for the supression of Indian hostilites, or whose services have been recognized by the United States, shall not be excluded from the benefits of the original bill The civil diplomatic appropriation bill was debated durme the remainder of the day.

in the House, a resolution from the Committee on Printing was ordered to be engrossed, relieving Father Ritchie from his printing contract, and giving him in heu of the terms which he agreed upon, one-half of the rates fixed by the law of The vote on the engrossment was very close, there being but a majority of three votes in its favor. Father Ritchie certainly has had a very narrow escape; but he is not yet safe, although we expect the resolution will become a law. The Committee on Ways and Means, we under-

stand, have agreed upon reporting an additional sum in aid of the Coltins' line of steamships. We are rejoiced at this. Our government must Support those splendid steamships. Averse as the American people are known to be to direct taxetion, we are satisfied they would willingly submit to be rated at a certain sum per head, and would cheerfully pay it, rather than that this line of steamships should be driven of the eld of competition by the British government line. A more popular measure has not been brought to the notice of Congress; and short as the time is before the adjournment, it is to be hoped that the exra allowance asked for will be granted. The Collins' tipe must be supported, or we must retire from she field of competition, and allow our English rivals to walk over the course at their leisure. We cersainly think the country will not, to use a very expressive term, "back out" from the friendly strug-gle now going on between the United States and Great Britsin for the supremacy of the scas. We must and shall conquer. Dollars and cents are not to be thought of in cont old times, the Dutch Admiral Von Tromp, with a broom at his masthcad, swept the English Channel. We must sweep the Atlantic and the Pacific -we must have the supremacy of these oceans, and all other nations, without an exception, must

Veny Late enous Havana. - We have received ele Charleston, per steamer Isabel, lately arrived there. Bles of Discret de la Maries and Fure Industrial de la Haveno, to the 25d of February, four days later than our previous advices.

The political news is of no importance. The island enjoyed ite ususi tranquillity; and the only movements we have temarked are some changes in the garrisons of the principal olties.

At Havana, the last performances at the Opera are set apart for the benefit of the principal artists, and have been fully attended. "Roberto il Diavolo," the masterplace of the great composer, Meyerbeer, was in active reheared, and was to be performed believe the end of the season. Ealvi, it is said, will leave Havana very seen, in order to fulfil ble engagement with Barnum, in assisting Jenny Lind to her conserts.

The representations of the Barel family are bighly successful. Every night of their appearance, the Tacon theatre is crowded in every part with audiences delighted by their nevelties. Mile Berlin, the fret danseure of the traces, had taken her benefit, in which she was literally buried under flowers and bouquels thrown upon the stage.

LATE FROM YCCATAN. - The brig Mary Acan, Capt. Wait, arrived from Siast, yesterday, which place be Sett on the 12th test. The Kary Ann has arrived with enty about one third of a cargo, though she remained at Sign! prerly two menths; and many recessis had to eave without a single package. This dearth of trade s ewing to the uncettled state of things, produced by the Indian troubles in the interior. Ecateely any produce is brought to market, and the price is extreme-

y high.
The government is in a very bad condition. Their treasury is exhausted and the troops, numbering come 17,000 are without pay, or clothing and nearly in a starving condition.

Marine Affairs.

The Breasence Onto. - This splendid steamer always remarkably fast, seems disposed since she has been coppered to college her commimates. She left here on Wednesday last, for Chegres, and we learn that her peed from the whart to the Hook was extraordinary. she left her pier at balf past three o'clock, and made

INTELLIGENCE PROM CENTRAL AMERICA .- We have received from San Salvador and Guatemala our files to the 5th of January. The news is of some importance republics. The insurrections in Guatemala are incessant, and the Gecrie of that State, throws all the blame on San Salvador. We give below the proclamations of the Presidents of these two republics, on this ques-

The British vessels still blockaded the ports of San Salvador, and did not permit any merchant vessels to Balvador, and did not permit any merchant vessels to discharge their cargoes of powder and ammunitions. The Gaceta, of Balvador, thinks that the government of Guatemala has something to do with that measure, and the Gaceta de Guatemala, on the other hand, ac-cuses the people of San Salvador of always disturbing the peace of the country by their continual aggres-sions.

rions.

The following are the two proclamations:

TOROTEO VASCANCELOS, PRESIDENT OF THE STATE

The folowing are the two proclamations:—
DOROTEO VARCENCELOS, PRESUMENT OF THE STATE OF SALVADOROTEO VARCENCELOS, PRESUMENT OF THE STATE OF SALVADOROTEO VARCENCELOS, PRESUMENT OF THE STATE OF SALVADOROTEO DOROTEO THE OTTICESS.

Salvadorence—I have been informed, for a long time, by reliable men, that the party allied in Guatemals with the public power, had contemplated an invasion on the department of Sonnonato. My suspicions are now confirmed, when I see the proclamation of General Carrera, dated in lutipps, cathe 19th uit.

After having violated the territory of Honduras, the friend and ally of Salvador, he threatens these ceutaries with an unknown audacity; he seeds them a warning; he obliges them to raise a movement against their legitimes Governor, and he menaces them with a war in their territory. Such an insult cannot be tolerated.

There are not be the created.

There are not be the created.

Countrymen, I know you. The entire State will fly to the frontiers and the Salvadorenos, I shall nethermitone single inches of this territory to be violated with impunity.

Vigilant for your quietness, and for the dignity of this country, so dear to us. I will call a numerous army that will have hew to correct severely those who dare profase our territory.

Friends, I see with great satisfaction, your good dispositions, and I feel the powerful influence of a singleness of opinion, and of that sentiment of honor and markial courage which has always characterized us, and rendered you ac famous in the days of conflict.

I deeples the insults heaped upon me by the press of Guatemals. I look with contempt upon its powerless threats; but I will not look with indifference if any outrage be effected to the State—even if the smalless of villages be endesigned to the State—even if the smalless of villages be endesigned.

offered to the State—vea dangered.
Citizens, we have a country. She is for us a sacred object. I swear to defend her rights, her laws, and her territory, with all the power and resources confided to my hands. I depend, size, for it upon your co-operation; and I am per-fectly convinced that you wall know how to aid the govern-ment, and runish the temprity which dares to take despe-rate steps of hortility against us. San talvader, December 4, 1850.
DOROTEO VASCONCELOS.

THE PRESIDENT OF THE REPUBLIC OF QUATEMALA TO THE Tee may have seen the preclamation of the President of the State of San Salvador, on the date of the 4th inst., annuaming that he calls troops to defend that State from the aggression which he falsely asserts we intend against that territory.

aggression which he falsely asserts we intend against that terristry.

The true object of those preparations is not a mystery, for any person in this republic or in San Saivador knews that government is moved by its inveterate and blind hatcod against Guatemais. You know very well that for more than three years it has not neglected any means to prejudice this republic, committing hostilities against all administrations ruling during all that time over the destiny of the country. They have though that it was already time to put-adid every kind of disguise, and to declare openly a war, without any respect or consideration for the opinion of the greatest part of the Salvadorean country. This war will be to their loss.

any respect or consideration for the opinion of the greatest part of the Salvadorean country. This war will be to their loss.

You have seen with what prudence the government has tolerated the repeated ofences which the Fresident of San Salvador has commisted, not only against the administrations but against commerce and the peaceable meighbors of San Salvador. To day, under the false precent that we intend to invade the department of Sotonate, and with the even more enluminious supposition that we have violated the territory of Honderrae, it prepares for a war, the responsibility and non-requences of which will rest upon those who engage is it with a tag just motive.

As a survey of Honderrae, the prepares for a war, the responsibility and non-requences of which will rest upon those who engage is it with a tag just motive.

As a survey of the survey of the survey of this decermined net to bring the war list a State neighboring San Salvador, it will know how to fulfill its deciration of the survey of your triumphs over those same enemies, must be read to be surveyed to the survey of your triumphs over those same enemies, must be yet alive in your minds. They think that our country has become weak, and they want to divide it between them. You will give them a new lessen—they will see that you have been to fulfil your duties, and that you accomplish them when necessary.

The sause of Guatemala is that of justice: I am confident that God will pritectit, as on the numerons former occasions.

Cryder and McKay and the Hilwankie

Gratemala, Becember 12, 1850.

Cryder and McKay and the Milwankie Bonds.

Before Recorder Talimarge, at Chambers.

Yesterday morning, the writ of certiorari, made returnable at 10 o'clock before his Honor the R-corder as noticed in the Heraid ef yesterday, in the matter proding against James McKay and John P. Cryder, to thow cause why, and by what authority of law the said parties were thus restrained of their liberty by the police magistrate was heard.

The counsel for the ascused parties were present at the appointed hour, and Mr. Blunt the District Attorney, accompanied by Justice Lothrop, was likewise present. Mr. Sandford for the defence moved to have the return made to the certiorari, served on the magistrate the day previous. Mr. Blunt then produced the following return, made by the magistrate.

In pursuance of the answed writ of certiorary, I.

megistrate the day previous. Mr. Blunt then produced the following return, made by the magistrate.

In pursuance of the annexed writ of certiferar, I, Jeremish Lotbrop, one of the Police Justices of the city of New York, certify and return to Frederick A. Tailmadge. Recorder of the city of New York, that James McKay and John P. Cryder, the persons named in said writ of certiferar, were, on the 15th day of February, instant, brought before me upon a warrant ally issued under my hand, a copy of which warrant is hereto annexed, marked (A), that the cause of the imprisonment of said James McKay and John P. Cryder is sufficiently set forth in said warrant, and that at the time of the receipt of the writ of certiferar, in this behalf, I had commenced and was proceeding to examine the complianant and other vitageness in support of the proceeution, on eath, in the presence of the prisoners, in regard to the offence charged, and such examination is still pending.

J. Lotting, Police Justice.

Mrw York, February 28, 1881.

On the reading of the above Mr. Sandford stated he believed that this was not such a return as the writ required, and he was prepared to show that the papers in the case already before the magistrate should be produced.

The Recorder replied that in reference to this matter, it appears it is still pending before the magistrate, and he doubted much the propriety of interfering with the investigation until rome adjudication had been made by the Justice.

[A messenger here came into the office, and stated that Mr Sandford was wanted immediately in the Circuit Court.]

The Recorder then said, he was willing, neverthe-

that Mr Sandford was wanted immediately in the Circuit Court.

The Recorder then said, he was willing, nevertheless, to hear counsel on either side; and as Mr Sandford was compelled to leave, he would adjourn any further proceedings until 4 o'clock that afternoon.

ATHERNOON MEARING.

At 4 o'clock, the appeinted hour, the case was resumed. Mr. Sandford said in reference to the return made, that it does not set forth the authority at all. There is none as yet. We aliese the facts set forth in the complaint do not in law show enough to warrant the detention of these parties. The Justice has no right to restrain the liberty of the defendants, when the fact does not exhibit enough to show that an off-noc has been committed. Mr. Sandford read averal authorities in the support of his argument. Mr. Shunt, the District Attorney, contended that the right of se concurrent jurisdiction to interfere. Here Mr. Blunt cited from Teopie ve Escase. At Sarbour, p. 31. The question was then the power of jurisdiction to reverse the decision of another Judge; also from the second Revised Statutes, p. 65, sec. 48; first Earbour, p. 30, sec. 35; and first Bill, p. 660, and several other-authorities were given in order to sustain the argument set forth.

Mr. Sandford, do reply, seat that all judicial officers have powers, and the Recorder has the power to remove a case pending before the Recorder; therefore the concurrent jurisdiction was not applicable in this case. Mr. Sandford, whose argument was very foreible, squis cited from second Revised Statutes, p. 576. sec. 45; intertent Wendle, p. 301; sho twenty third Wendle, 217. We ask, raid he has the magistrate lessed his warrant duly or not and justicy. We want the authority, the complaint. The copy of the warrant here annumed is not sufficient; it is nocessary to show, according to the statute, the authority on which he complaint is founded.

Mr Van Euren, on the part of the defence addressed the Recorder in his neval and to the effect which he will be relieved of the hearing and tr

again briefly alluded to the case, and it was then submitted.

The Recorder said that the case was one of importance as a precedent would possibly be established by his decision. He therefore would take a short time to make up his mind on the subject. An application was then made to ball the defendants. Mr. Van Buren said that his clients could give built in the sum of \$10,600, with the provision, however, that is no doing, they would not be debarred from the cross translation of the complaints. The district attorney considered that the ball was umple to insure their attordance, and guaranteed the rights of the defendants to the examination for the description of the examination of the defendants. The day the required the samulation required. To day the required had will be entered into before Justice Lotksop, and the accused parties liberated from custody.

MONEY MARKET. FRIDAY, Peb. 28-6 P. M.

The market opened heavy this merning, and prices fell off considerably. There were large transactions in the leading railroad fancies, principally for cash. At the first board Eric Income Bonds declined % per %; Edgeworth %; Reading Railroad %; Hudson River Railroad 1; Erie Railroad 2; Harlem %; Norwish and Worcester 14. State stocks and railroad bonds were in better demand. Harlem was very firm at quotations, and varied less to-day than any other on the list. Nearly two thousand shares were put upon the market, and it improved from the opening. Morris Canal has declined three per cent since yesterday morning: The announcement made in the Herold that an injunction had been granted by the Chancellor o New Jersey, created considerable excitement in Wall street, and depressed the market value of the stock very materially. As soon as the company have been officially served with the injunction, all transfers of the old stock will cease; and if the board of direstors do not at once proceed to carry out the pro-visions of the act amending the charter, a receiver will be appointed to protect the interest of the stock-holders. The management of this company have been guilty of a gross outrage upon the rights and privileges of stockholders, and it is about time an injunc' tion or some other restriction, was put upon them. It appears that soon after the act amending the charter of the Morris Canal Company passed the Legislature of New Jersey, the stockhelders held a meeting and voted to accept the amendment, and at the same time passed a resolution requiring a consolidation of the eld stock, an issue of preferred stock and an aban donment of the old banking privileges. These were the conditions of [the supplementary act, and they were adopted. Some time after, the board of directors got together, and voted to rescind the resolution passed by the stockholders, to consolidate the old stock. The directors had no more right to do this than they extract their stock, and destroy it. It is, however about on a par with the doings of boards of directors all over the country, and should not astonish any one This injunction will put matters and things all right and we shall know what a certificate of stock means and bow many shares represent the capital stock of the company.

The receipts at the office of the Assistant Treasurer of this port, to-day, amounted to \$91,770 21; payments, \$\$00 82-balance, \$3,678,041 72.

The capital stock of the Hanover Bank has been nearly filled. The books closs on Saturday. Subscriptions will be received at W. & J. O'Brien's. No. 33. and Corning & Co 's, 63 Wall street. The bank will be located on the corner of Pearl street and Hanover
